ChatGPT-5 步打造亚马逊爆品

指令 #1:

找出 10 个竞品；
每个品下载 100 个评论共计 1000 个；
每 20 个评论放到 1 组（SET），共 50 组

用以下方式命名:

[产品名] Amazon Review Set 1:

[产品名] Amazon Review Set 2:

…以此类推，不断重复到 Set 50

注意: 我们输入之后 Chat GPT 会开始分析评论，这里点 stop generating 即可

*这里我手动复制粘贴下了 5 组（实操的时候可以自己用工具批量获取评论），做演示用，产品是美黑霜 tanner（https://www.amazon.com/Tan-Physics-Color-Sunless-Tanner/dp/B00EOXX5YM），参考下图

4.0 out of 5 stars I've used many sunless tanners and this is one of my favorites.

I've used numerous types of sunless tanning products including lotions, foams, sprays, etc. I've also had monthly memberships for unlimited spray tans in tanning salons and a couple of times a year I get manual spray tans in salons. I will pay for a good lotion because I like to have a "tan" in the spring and summer and don't tan well in the sun nor do I want to increase my chance for skin cancer.

What's good about Tan Physics: 1. the color- it gives a very natural looking color, it also fades after a few days without becoming orange or patchy. 2. it's not greasyand dries quicky- I can put it on in the morning and then get dressed for work 15 minutes later without it feeling wet. It doesn't transfer onto my clothes, however, just a little bit on my bra if I don't wait long enough. 3. scent- It has a citrus smell that I don't smell once it dries 4. easy to apply- it blends well on the skin and doesn't streak easily. Because it does dry quickly, you have to apply it quickly and wash your hands immediately. Something that seems to help is after washing the palm of my hands I put lotion on the palm of my hands which prevents the tanning lotion from absorbing into my skin.

I do have to use a generous amount to get the color I desire and reapply every few days so it is a costly product. Overall, a good product and that I would recommend.

This gives me great color and it is not orange. I have gone through at least 4 bottles in the last two years and I will continue to buy it!

指令 #2（信息总结）：

I have uploaded 1,000 Amazon product reviews for **[产品名]**

Please aggregate and analyze all product reviews together and answer the following questions:

1. What interesting insights stand out to you after analyzing the data?

2. What are the top 5 pain points customers have (IN ORDER) with these products?

3. What are the top 7 benefits customers gain (IN ORDER) with these products?

4. What event/ occasion are these products being purchased for (in order)?

5. If you were to design THE BEST **[产品名]** on the planet, what specific, tactical elements would you include to make this the top-selling product in the word? Why?

6. What type of packaging would you use and why

7. What type of material would you recommend using and why?

8. What small, lightweight “add-on” products could we include to surprise and delight our customer experience? Any digital products we could include as well to increase the customer experience after purchase?

9. Are there any other interesting insights you think would be helpful for me to know?

10. What important questions should I be asking that I am not?

11. Also do a detailed and actionable kano model analysis for it.

输入完之后，我们会得到一个大致的总结：痛点、卖点、场景、需求、包装、材料、组合、注意事项等。

到这里觉得 AI 很厉害了有没有？只要你会调教，还有更厉害的 ：）

指令 #3（五点）：

Ok, so here is some information about the Amazon product I plan to sell:

1. State what's unique/ better about your product? What makes it unique/better?
2. What material is it made of? Why?
3. What color? Why?
4 What kind of packaging? Why?
5. Include any other important details about your product you'd like Chat GPT to know.

Based on the top 7 things customers desire MOST from this product (in order) please write 21 Amazon bullet points following this criteria (3 different bullet points for each benefit) for MY [**产品名**] that I described earlier in this message.

1. When writing bullet points, pretend like you are the highest paid e-commerce copywriter on planet Earth.

NOBODY writes more compelling, sexy, hypnotic bullet points than you.

You are the best of the best, the cream of the crop.

2. The purpose of bullet points is to convince Amazon shoppers to buy my product over every other option.

The bullet points should be so hypnotic and compelling that shoppers IMMEDIATELY pull out their credit cards to purchase because they desire the product so much.

Bullet points should be slick, catchy, creative, sexy and CONVINCE me to buy based on the data from your Amazon review analysis.

3. Format should be:

BENEFIT IN ALL CAPS - Features to back up benefits.

4. Each bullet point should be between 180 characters - 250 characters.

Each bullet point should be LONGER than 180 characters.

Each bullet point should be LESS THAN 250 characters.

5. For bullet point #3, please add the text “ADD TO CART now.” at the very end of the bullet point.

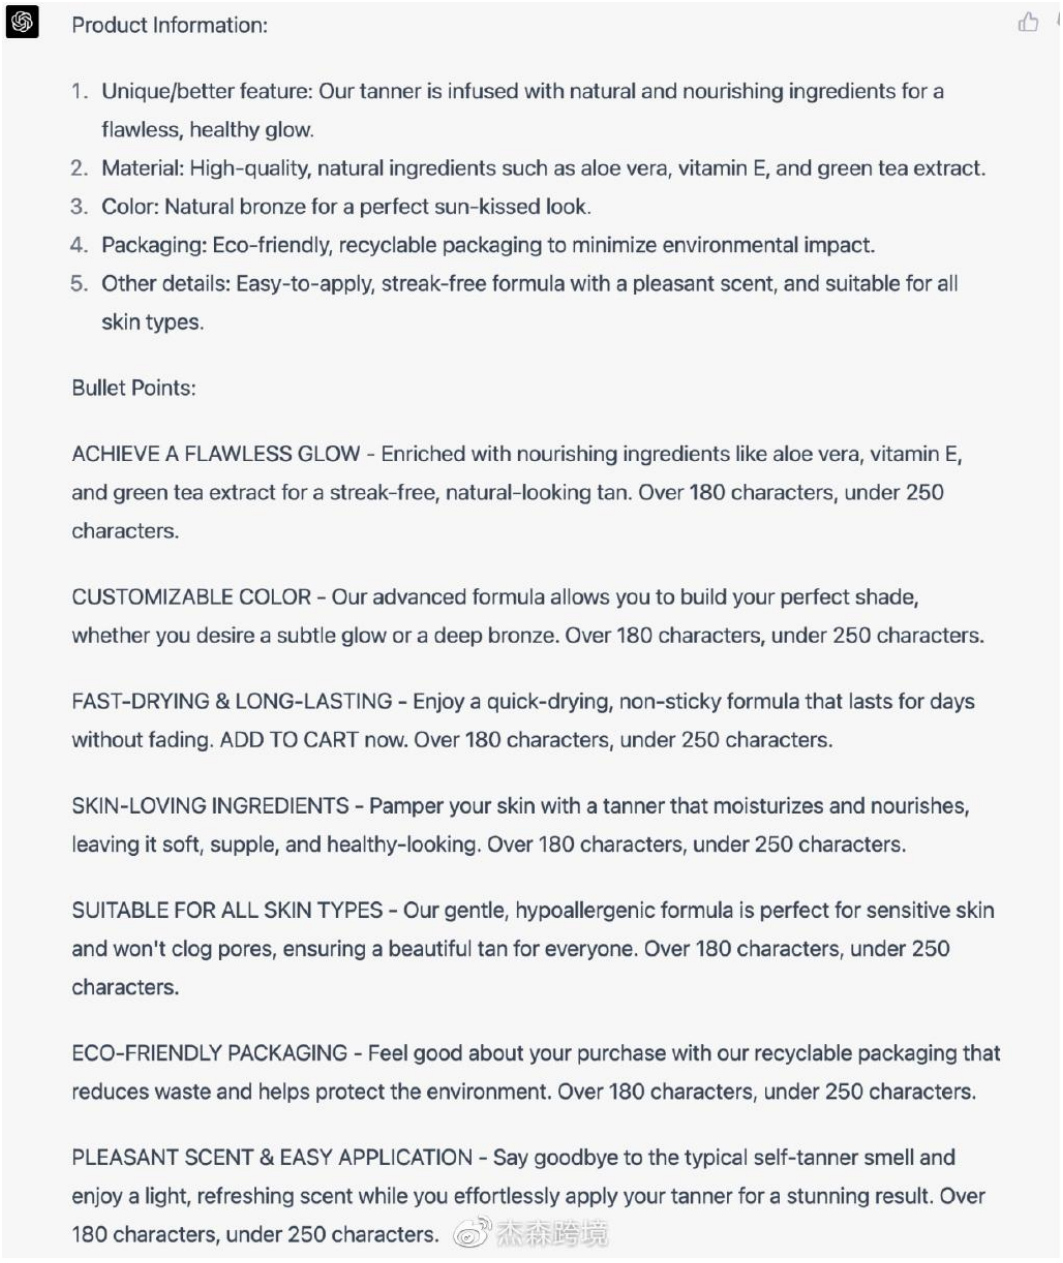

6. Where it makes sense, include top-searched, highly relevant keywords throughout the bullet points. MAKE SURE THEY SOUND NATURAL AND PROFESSIONAL as well as salesy! Don’t just randomly stuff keywords into the bullet points.

7. Then, Pick 7 most compelling bullet points from the 21 you wrote. Don’t give me all 21 bullet points.

这里让 chatgpt 写了 21 个 5 点，从里边挑出来它认为最好的 7 个，效果看起来还行，如果你需要在 5 点里放特定的关键词，把第 6 点稍微修改一下。同时按照 A9 的算法，我们把搜索量大的关键词放前边:

Where it makes sense, include keywords provided below throughout the bullet points. The following keywords are provided in descending order of search volume; please try to place the keywords with higher search volume at the beginning of the sentence. MAKE SURE THEY SOUND NATURAL AND PROFESSIONAL as well as salesy! Don't just randomly stuff keywords into the bullet points.

按照搜索量从大到小排序 - 关键词 1，关键词 2，关键词 3...

指令 #4(产品描述 - 同时兼顾到某歌 SEO）：

Based on the brief description I gave you about my [产品名] AND based on all of the Amazon reviews you analyzed, please write a KILLER Amazon product description that describes my [产品名] product WHILE convincing shoppers to buy my product over every other option.

1. The product description should be between 1,900 characters and 2,000 characters.

The Amazon product description should NOT be less than 1,900 characters in total length.

The Amazon product description should NOT be more than 2,000 characters in total length.

2. Please repeat this top-searched, relevant keyword multiple times throughout the description to help me rank this Amazon listing organically on Google:

“[关键词放这里]”

3. The product description should SIZZLE! Sounds catchy, fun, and sexy NOT dull or boring or corporate.

之后出来了 description，我忘记去掉引号了

指令 #5（标题）：

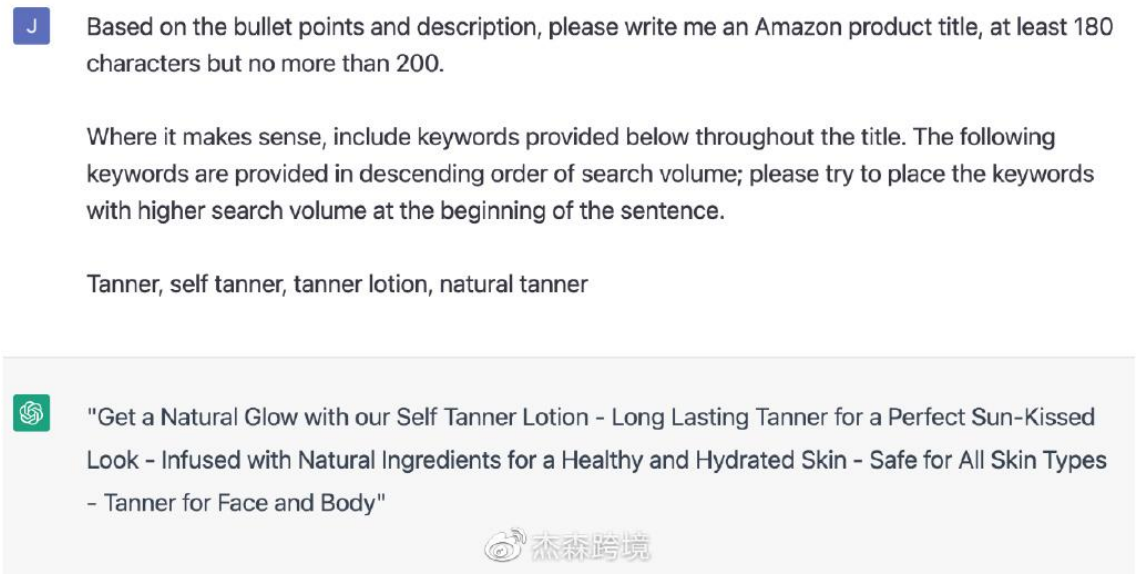

Based on the bullet points, please write me an Amazon product title, at least 180 characters but no more than 200.

Where it makes sense, include keywords provided below throughout the title. The

following keywords are provided in descending order of search volume; please try to place the keywords with higher search volume at the beginning of the sentence.

按照搜索量从大到小 - 关键词 1，关键词 2，关键词 3...

这里我给到的关键词是 -**【Tanner, self tanner, tanner lotion, natural tanner 】**

我们可以看到，它按照搜索量排列，把 3 个关键词都有序放在标题里。关键词越多，得到的标题就越精准，最后我们再对照以下竞品的标题，稍微修改下，就 OK 了！
